Steve brought the meeting to order at 2:00 p.m. The minutes from September 6, 2007 were reviewed. A motion to approve the minutes was made by Tom Clemens and 2nd by Joan Newgren. The motion was passed and the minutes were approved.

Lisa Cole discussed the Research In Developmental Education article regarding benchmarks. We discussed the articles findings with regard to retention and success in developmental classes.

Steve then discussed his success in creating a program that produces the star charts. He brought three examples of the charts and the committee unofficially decided that the single line without the connecting rods were the charts that were easiest to read. The program works well, is easy to use and easy to modify. Steve will continue to work on adjusting the program, but the committee is strongly considering their use for display of data the college is interested in considering for data charts.

There was no other old business.

A motion was made by Julie Fraser to adjourn the meeting. The motion was passed and the meeting was adjourned at 3:00 p.m.
