Semester meeting times were discussed and Friday at 3:00 p.m. on off-CAS/ASSESSMENT weeks were decided and the group will meet in ICB 2801.

The next item of discussion was to decide how to end the project. Since there are only 7 meeting times left, the group decided to construct a survey for students regarding their goals. This is to see if there is any correlation to student goals and success.

At the next meeting, January 18, 2008, participants will bring questions to build a possible survey which will be given by volunteering faculty and possibly student services.

Dana Rosenberg brought charts reflecting an Overview of HCC Course Placement for Math, Reading and English.

We will also discuss an agenda schedule for the rest of the meetings for the semester at the next meeting.
