

Radiography Academic Progression

GRADE POINT AVERAGE

A grade point average of 2.0 on a 4.0-point scale must be maintained for continuation in the radiography program.

The student must earn a "C" or better in all Radiography (RAD) and general courses required in the curriculum for the Associate in Applied Science degree in Radiography.

GRADING SCALE

Grading scale for the Heartland Community College Radiography Program courses will be as follows:

| | |
|-----------|------------|
| 93 – 100 | = A (pass) |
| 84 – 92.9 | = B (pass) |
| 75 – 83.9 | = C (pass) |
| Below 75 | = F (fail) |

For all Radiographic Procedures (RAD 112, 122, 132) courses, if three unit tests and/or units are failed in one semester, it is an automatic course failure.

For every three absences in positioning lab each semester, there will be a drop of one letter grade of the course grade.

Final exams for all radiography courses are comprehensive. **All tests, including the final exam, are only taken one time.**

Students receiving an "F" for any radiography (RAD) course are referred to the Readmission Criteria in the Heartland Community College Radiography Handbook.

Additional criteria are found in the student syllabus for each course.
